

Option Care Health Digital Accessibility Statement

Our Policy & Commitment

At Option Care Health, we are committed to accessibility, diversity, and inclusion. As part of that commitment, we are making efforts to ensure that Option Care Health's digital properties are accessible to all individuals, regardless of ability. In doing so, Option Care Health has a goal to comply with applicable accessibility standards included in the W3C's WCAG 2.1, Level AA guidelines.

Digital Accessibility Statement

We are working to ensure our websites and online services are accessible for all and are committed to following the W3C Web Content Accessibility Guidelines and complying with applicable law.

To accomplish this, we have [partnered with Level Access](#) to leverage their digital accessibility platform and 25 years of experience to achieve and sustain conformance to accessibility standards. Their digital accessibility platform is used to evaluate our digital properties in accordance with best practices and is supported by a diverse team of accessibility professionals, including users with disabilities who also conduct manual audits of digital properties.

Through this partnership, Option Care Health continues to develop our digital accessibility program and capabilities so that we are designing, developing, and testing our websites and online services for conformance to accessibility standards.

Contact

We want to hear from you. If you would like further information about Option Care Health's accessibility efforts, have other accessibility questions or feedback, or encounter accessibility barriers on our digital properties, please contact:
